# ACTIVE YOUTH

## What is the EGREG System?

EGREG is an all-in-one solution designed to cover the whole life cycle of Grants Projects starting from the submission of applications up to grants project closure.

It is composed of three main modules: Applications Submission, Applications Management, and Grants Projects Management & Monitoring

# ACTIVE YOUTH

## Why to use it?

It is mandatory for any Lead Partner (to fill in the Concept Note)

It is advisable to register to all entities interested to participate (not mandatory in this phase for other Project partners)

It will allow for better follow-up of made available additional information and/or documentation about the Call

It will serve to the FO to try to avoid double registration from the same entity via two separate units

It will serve to all possible applicants to fill in the Partner Search section.
